

# **Flávia Gabriela Oyo França**

## **MEG 2**

From: Brasília-DF, Brazil

Currently living in: Luanda, Angola

### **Life After MEG:**

Flávia is currently based in Angola and is the Regional Compliance Coordinator for the EMEA region at Odebrecht Engineering and Construction since September 2016. She joined the Compliance team when Odebrecht was forming its Global Compliance Program and just before OEC started with the independent government monitoring. Her role is to ensure good governance and compliance with company standards, implement policies and procedures in cross cutting areas especially in her delegated region, and also coordinate the communication and training program focused on compliance.

She worked for 10 years in a multicultural environment promoting compliance, environmental and social development within infrastructure projects in emerging countries and understanding the role of the private sector in enhancing the importance of sustainable regional development, civil society participation and environmental conservation. Previously she has held sustainability leadership roles, managing and verifying compliance with laws and regulations related to environmental, social, health and safety aspects of infrastructure projects in Brazil, Peru and Angola. Before joining the current company, she worked as a Climate Researcher at IPAM – Instituto de Pesquisa Ambiental da Amazonia (Amazonia Environmental Research Institute).
