

Seirra Römmermann

MEG 2

From: Minneapolis, Minnesota USA

Currently living in: Freiburg, Germany

Life After MEG:

After MEG, Seirra continued her work with Benesse Educational Research and Development Institute as a Global Project Team Leader and Quality Assurance team member. During her work with Benesse she developed and implemented team and professional development monitoring, evaluation, intervention, and continuing education seminars. She also globally trained teachers in instruction and lesson planning and created manuals and didactic materials for instructional training use on a world-wide basis. She was also responsible for developing new pedagogical tracking as well as materials and methodologies for meeting quality and business performance standards: ISO, TÜV, and learning cycle quality standards within customer frames.

In 2013, Seirra wished to combine her experience gained in knowledge, behavior, and attitude research with her passion concerning children's environmental health issues. She decided to turn toward an academic career and is currently following that path.

Seirra is proud Mama to 3 kiddos Emmi 4 yrs, Henning 1 ½ years , and Hannes 3 months.

In her spare time she likes to hike, bike, read...and organize 10 year reunions. :D
